Experience

Product Management Representative - Sequel Technologies, Islamabad *Jul 2026 - Present*

- Own product planning and feature prioritization by collaborating with stakeholders, engineering, UI/UX, and QA teams to align business goals with customer needs.
- Define product requirements, Epics, User Stories, Acceptance Criteria, Product Requirement Documents (PRDs), and release plans for enterprise software solutions.
- Led the redesign of the platform's user interface, introducing a modern product experience that has been successfully adopted by 10+ enterprise clients and is currently being requested by additional customers.
- Analyze customer feedback, usage patterns, and business needs to identify product enhancements, improve usability, and drive continuous product improvements.
- Coordinate product releases, validate features through UAT, and ensure successful delivery using Agile methodologies.

Junior Business Analyst (AI/IT) - Sequel Technologies, Islamabad *Mar 2026 - Jun 2026*

- Collaborated with cross-functional development, UI/UX, and QA teams to gather and analyze business requirements for enterprise software solutions.
- Created and maintained Business Requirement Documents (BRD), Software Requirement Specifications (SRS), Technical Design Documents (TDD), Epics, User Stories, Acceptance Criteria, and process flows.
- Designed user interfaces and system workflows using Figma while working closely with designers and developers to ensure accurate implementation.
- Performed functional testing, User Acceptance Testing (UAT), and front-end quality assurance to validate business requirements before deployment.
- Conducted Vulnerability Assessment and Penetration Testing (VAPT) reviews and coordinated with development teams to resolve identified security issues.
- Facilitated sprint planning, backlog refinement, stakeholder meetings, and supported Agile software delivery.

Junior Business Analyst (AI/IT) - CareCloud (MTBC), Bagh AJ&K *June 2025 - March 2026*

- Gathered business requirements from multiple stakeholders and translated them into functional specifications.
- Created BRDs, FRDs, UML diagrams, user stories, UI mockups, and process flows for AI-driven healthcare solutions.
- Worked closely with developers and QA teams throughout the software development lifecycle to ensure successful implementation.
- Supported Agile ceremonies including sprint planning, backlog refinement, and requirement clarification.

Junior Business Analyst - Al Beruni Tech , Islamabad *April 2024 - May 2025*

- Gathered and documented business requirements for 5+ projects, ensuring stakeholder alignment and clear functional understanding.
- Analyzed operational data and built 20+ reports and dashboards to support insights, decision-making, and performance tracking.
- Contributed to process mapping and workflow optimization, helping improve operational efficiency by 20%.
- Collaborated with 3+ cross-functional teams to track milestones, align requirements, and ensure on-time project delivery.

Web Developer - Concordia College Kalar Syedan *March 2023 - April 2024*

- Developed responsive websites using HTML, CSS, JavaScript, and front-end frameworks.
- Collaborated with stakeholders to deliver web solutions for institutional needs.

Internships/Certifications

Project Manager Intern - Saint Louis University *Aug 2025 - Sep 2025*

- Managed end-to-end project lifecycles within scope, timeline, and budget constraints.
- Coordinated resources and delegated tasks to meet delivery milestones.

Project Manager Intern - Askari Bank IT Head Office *Jul 2025 - Aug 2025*

- Oversaw banking IT projects ensuring regulatory compliance and data security standards.
- Collaborated with business units to streamline workflows and achieve timely delivery.

HTML,CSS,JS for Web Developers - John Hopkins University *Dec 2024 - Feb 2025*

- Built responsive web pages using HTML, CSS, and JavaScript with interactive features.

- Applied front-end best practices including semantic HTML, CSS styling, and DOM manipulation.

Education

Bachelor of Software Engineering

National University of Modern Languages (NUML), Islamabad

Sep 2021 - Aug 2025

Projects

AI Scribe

- Worked as a Business Analyst on the AI Scribe project, collaborating with development, UI/UX, and QA teams throughout the Software Development Life Cycle (SDLC).
- Proposed multiple product enhancements to improve workflow efficiency, usability, and overall user experience.
- Created user stories, acceptance criteria, and functional documentation to support successful feature implementation.

Patient Portal

- Worked on multiple patient portal workflows, making them more intuitive, efficient, and easier for patients to use.
- Gathered and documented business requirements while collaborating with stakeholders, developers, and QA teams.
- Contributed to enhancing the patient experience by optimizing workflows and improving system functionality.

RCM (Revenue Cycle Management) Automation

- Worked on automating manual Revenue Cycle Management (RCM) processes using AI-driven automation and intelligent crawlers.
- Collaborated with stakeholders to identify manual workflows and define business requirements for AI-based process automation.
- Contributed to designing automated workflows that reduced manual effort, improved operational efficiency, and increased process accuracy.

Banking Software Optimization

- Worked on a banking software optimization project focused on improving the credit card application and management process.
- Proposed a new workflow for credit card operations to streamline the process, enhance operational efficiency, and improve the customer experience.
- Collaborated with stakeholders to analyze business requirements and document the proposed workflow for implementation.

Core Skills

Business Analysis: Requirement Gathering, Functional Documentation, User Guides Preparation, Gap Analysis, Competitive Analysis, Impact Analysis

Process Modeling & Documentation: UML, Process Mapping, Workflow Design, BRD, FRD, SRS, User Stories

Tools & Platforms: Jira, Draw.io, Figma, Lucidchart, Microsoft Office Suite, Figma

Analytical & Problem-Solving: Data Analysis, Root Cause Analysis, Critical Thinking

Project Support: Agile Collaboration, Sprint Planning Support, UAT Coordination
